

Ken Torgerson

Words fall short to truly describe the impact that Ken Torgerson has had on Lake Isabella.

Ken served the community as the first President of the LIPOA , and held this position from 1969 until 1986. His leadership to the community was vital in the early years as the newly created LIPOA began to take shape and take over the leadership role in the community after the bankruptcy of the Lake Isabella Corporation.

As a long-time proponent of the community becoming an incorporated village, he worked with the LIPOA in the fall of 1992 to form a committee to examine the feasibility of becoming a village.
